

EdTech Development Setup

Download and install node.js <https://nodejs.org/en>

Open your cmd and navigate to the directory where you want to create your project. Type example:

- `cd "C:\Users\amabelle pacala\Documents\3rd\SAD\SAD Research"`
- `mkdir edtech-backend`
- `cd edtech-backend`
- `npm init -y`
- `npm install express`
- `npm install nodemon --save-dev`
- `node app.js`

Close and open the cmd again, then type example:

- `cd "C:\Users\amabelle pacala\Documents\3rd\SAD\SAD Research"`
- `mkdir edtech-frontend`
- `cd edtech-frontend`
- `npx create-react-app .`
- `y`
- `npm start`

Close and open the cmd again, then install axios. Install axios where react is located (which is in ex. edtech-frontend) so type example:

- `cd "C:\Users\amabelle pacala\Documents\3rd\SAD\SAD Research\edtech-frontend"`
- `npm install axios`

Done. Remember the “npm start” command everytime you compile your program.
